VETERANS URGED TO KEEP BENEFICIARY LISTING UP-TO-DATE
Hundreds of the 24,000 Maine veterans carrying GI insurance are neglecting to keep up to date their listing of a beneficiary for their policy proceeds.

Because of this the insurance proceeds may not be paid to the individual nor in the manner the veteran would wish.

A divorced wife or wealthy parent may take precedence over a present wife or children since the VA must pay the proceeds of the insurance policy to the beneficiary designated by the veteran himself.

A recent sampling in which a group of veterans were asked if they wished to change the beneficiary brought out out of ten of them a negative reply.

Necessary forms for these changes can be obtained from the Veterans Administration, 1000 Main Street, Tugit VA Center, and Bethel VA Office. By sending directly to the VA, the veteran can avoid the cost of a premium.

Veterans urged to keep beneficiary listing up-to-date. Hundreds of the 24,000 Maine veterans carrying GI insurance are neglecting to keep up to date their listing of a beneficiary for their policy proceeds.

Because of this the insurance proceeds may not be paid to the individual nor in the manner the veteran would wish.

A divorced wife or wealthy parent may take precedence over a present wife or children since the VA must pay the proceeds of the insurance policy to the beneficiary designated by the veteran himself.

A recent sampling in which a group of veterans were asked if they wished to change the beneficiary brought out out of ten of them a negative reply.

Necessary forms for these changes can be obtained from the Veterans Administration, 1000 Main Street, Tugit VA Center, and Bethel VA Office. By sending directly to the VA, the veteran can avoid the cost of a premium.

FOUR GOULD SENIORS NAMED SEMI-FINALISTS IN MERIT COMPETITION

Headmaster Edmund J. Vachon has announced that four seniors at Gould Academy have been named semifinalists in the 1966-67 Merit Scholarship competition.

The students cited for their high achievement are Peter Howard of Orrington, Savannah Stinnett of Rockport, Eugene Tebbets and Stephen Trinward of Bethel. Tebbets is the son of Mr. and Mrs. John Tebbets and Trinward the son of Dr. and Mrs. John Trinward.

They are among the highest-achieving students in the state of Maine on the National Merit Scholarship Qualifying Test, administered last spring in 17,500 schools nationwide. More than 14,000 semifinalists were appointed across the country. They constitute less than two thirds of one per cent of the graduating secondary senior population.

The semi-finalists can advance to finalist status by receiving the endorsement of their schools, substantiating their qualifying test performance on a second examination, and submitting information about their achievements and interests. All Merit scholars for 1967 will then be selected from the finalist group.

GOULD STUDENTS RECEIVE COMMENDATION LETTERS FROM MERIT PROGRAM

Letters of commendation honoring their high performance on the 1966 National Merit Scholarship Qualifying Test (NMQT) have been awarded to four students at Gould Academy Headmaster Edmund J. Vachon, has announced.

Those named commended students are Nancy Chapin of Bethel, Elise Hatch of Rumford, and John Pollack of Harrison. Miss Chapin is the daughter of Mr. and Mrs. Charles Chapin of Bethel.

They are among 30,000 students in the United States who scored in the upper two per cent of those who will graduate from high school in 1967. The commended students rank just below the 14,600 semifinalists announced earlier this month by the National Merit Scholarship Corporation (NMSC).

John M. Stalnaker, president of NMSC, said "The outstanding record made by these students in a national competition deserves public recognition. Their significant academic attainment gives promise of continued success in college."

The commended students should be encouraged to pursue their education as their intellectual talent represents an important and much needed natural resource. Our nation will benefit from their continuing education and development."

Only the highest-achieving students in each state, the semi-finalists, remain eligible to be considered for Merit Scholarships. Although students receiving letters of commendation advance no further in the Merit program, their names are reported to other scholarship-granting agencies and to the colleges they named as their first and second choices at the time they took the NMQT.

Miss Elise Hatch

Miss Barbara McKnight

These colleges also receive report of home addresses, test scores, anticipated college majors and career intentions of the commended students. NMSC encourages these students to make every effort to continue their education.

Mr. and Mrs. Roy Verrill of Richmond, Maine, called on friends in town Sunday. U. S. GOVT. OFFICIAL URGES HIGH SCHOOLERS TO STAY IN SCHOOL.

A high school diploma is becoming a minimum requirement for jobs in our society, according to Wendell D. Blackdonald, chairman of the Boston Federal Reserve Board, who is urging all high school age youth to continue their education this fall.

The high school dropout faces a bleak employment future, he said, since explosive technological change and automation are eliminating old jobs and producing new ones that require extensive skill and knowledge.

Blackdonald, who is New England Director of the U. S. Labor Department's Bureau of Labor Statistics, said that over 3 million of the 10 million youths aged 16 to 24 in the work force do not have high school diplomas.

Blackdonald said the high school dropout rate is 16 percent. The unemployment rate for high school dropouts is 15 percent, as compared with 8.4 percent for graduates.

The dropout is more likely than the graduate to be unemployed or to hold a poor paying and undesirable job.

The dropout has less chance to advance and his job is more likely to be taken over by a machine.

More than the person who completes only one to three years of high school, and 80 percent more than one who does not finish eight years of school. The college graduate can expect to earn 60 percent more than the high school graduate.

Figures relating average lifetime income with levels of educational attainment show that the person with less than eight years education will earn \$141,000, one to three years of high school \$207,000, four years of high school \$247,000, and four years of college \$407,000.
